

# Seneca Newsletter

April 2019

Just a Reminder ...

## Safety Hazard Notification

Iron Triangle is asking people to refrain from driving, walking, riding, etc. on Strawberry Lane between B Avenue and the city limits during their normal operating hours of 6 am to 4 pm. There have been some near misses with people accessing the work site while they are operating the chipper and/or moving logs across the road.

## Neighborhood Meeting

The first ever Seneca Neighborhood Meeting will be held in May. It will be held during city hall business hours, have at least one Councilor in attendance, and last for about an hour. Come ask questions about what's going on, or make recommendations for changes you'd like to see. Meeting is completely informal and open to anyone, neighbors included. Check the May newsletter for the date and time and it will be posted around town.

## Seneca Community Garden

The Seneca Community garden still has plenty of planting room available! If you want to supplement your own food bills or help teach kids how to grow their own food, call Susie Hill @ 541-542-9101.
